More Than Cotton

Crochet Top Sizing

Take exact measurements for me so I can make your piece fit perfectly! I need your underbust, bust, and cup width. The measurements can be taken in inches or centimeters--whichever is easiest for you!
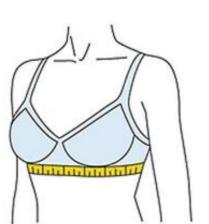

To measure your cup width:
Measure the distance from the middle of your chest to the outside of your breast. Measure across the *middle* of your breast, where it is widest.

1 BAND SIZE

2 BUST SIZE
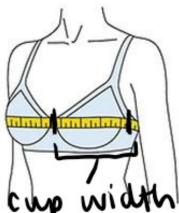

To measure your underbust (band size):
Measure the circumference of your body right underneath your breasts. One way to do this is to take a tape measure and place it on a point underneath your breasts. Wrap the tape measure around your body until it reaches the initial point--this is the length of your underbust!

Wrap the tape measure around your chest, just beneath the breasts. **This is your band size.** (example: 38")

cup width

Wrap the tape measure around the fullest part of your breasts. **This is your bust size.** (example: 41")

To measure your bust:
Wrap the tape measure around the fullest part of your breasts and around your back. This is your bust measurement!

If you have any trouble, please reach out to me! There are no stupid questions. I am happy to help :)
